EDUCATION

University of Lynchburg **Lynchburg, VA**

B.S. in Accounting and Computer Science, Minor in Mathematics - GPA: 3.88 *May 2027*

Relevant Coursework: Intermediate Accounting, Database Management Systems, Business Statistics, Linear Algebra, Data Structure and Algorithm, Distributed Computing, Artificial Intelligence

EXPERIENCE

Audit Data Analyst Intern, Ingersoll Rand **May 2026 – Aug 2026**

- Reduced preparation needs for 24+ automated controls by building SQL/Python
- Increased confidence in Snowflake outputs, performing independent completeness and accuracy validation
- Automated physical inventory calculations for six global manufacturing sites used by internal audit to validate site calculations and grant physical inventory exemptions
- Re-built four dashboards in Qlik and two in Streamlit that previously existed in other analytic solutions which are being phased out (Power BI, Tableau)

Peer Tutor, Computer Science & Calculus, University of Lynchburg **Jan 2024 – Present**

- Instruct students in foundational C++ programming and core calculus concepts (derivatives, integrals, limits), building step-by-step problem-solving frameworks for beginner-level learners

Resident Assistant, University of Lynchburg **Jan 2024 – Present**

- Apply university protocols to manage and de-escalate sensitive situations, maintaining a secure environment for a diverse residential community while communicating policy updates that build trust and accountability

Freelance Developer, Qirat Ventures (Remote, via Upwork) **Summer 2023**

- Delivered a React/PHP/MySQL e-commerce site with secure login utilizing OpenSSL for encryption, AES for data encryption and Bcrypt for password hashing and improved user engagement by 30%

PROJECT EXPERIENCE

imdbSpark Github | Java, AWS S3, AWS EC2, Apache Spark, Hadoop, YARN **Nov 2025**

- Built a distributed Spark pipeline on AWS to analyze 3M+ records, showing ability to work with large-scale data
- Optimized Spark and cluster performance to cut job execution time by 25%

LEADERSHIP, ACTIVITIES & AWARDS

President, Nepali Students' Club, University of Lynchburg **Aug 2024 – Aug 2025**

- Managed an annual budget and coordinated with university administration on compliance and reporting requirements; grew member engagement through improved event processes

Global Distinguished Scholarship Recipient: Awarded for academic excellence and leadership potential; renewed annually through graduation

Most Outstanding Student in Computer Science: Awarded to a senior with most outstanding academic and leadership achievements in the department

SKILLS & INTERESTS

Technical: Python, SQL, Java, C++, Snowflake (Cortex Code, Cortex Agents), Qlik Sense, Streamlit, Tableau, Excel (VLOOKUP, Pivot Tables, Financial Modeling), AWS

Accounting: GAAP Financial Reporting, Financial Statement and Cash Flow Analysis, General Ledger and Month-End Close, Internal Controls, Bank Reconciliation

Languages: English (Fluent), Nepali (Native), Hindi (Conversational)
