WORK EXPERIENCE

Computer Science Tutor | University of Lynchburg — September 2024 – Present
- Instructed students in foundational C++ programming, focusing on building logical frameworks and a systematic approach to problem-solving for beginner-level code

Resident Assistant | University of Lynchburg — January 2024 – May 2025
- Applied established protocols to manage and de-escalate sensitive situations, ensuring compliance with university policies and maintaining a secure, controlled environment
- Communicated critical information and policy updates to a diverse residential community, ensuring clear understanding and fostering an environment built on trust and accountability

Calculus Tutor | University of Lynchburg — January 2024 – May 2025
- Delivered individualized instruction in mathematical concepts including derivatives, integrals, and limits
- Deconstructed complex quantitative problems into logical, step-by-step solutions, enabling students to apply theoretical models to practical scenarios

Client: Qirat Ventures | Freelance Developer (Remote, via Upwork) — Summer 2023
- Designed and implemented database-driven e-commerce system managing book inventory and customer transactions
- Developed secure user authentication and data protection protocols ensuring client data confidentiality
- Collaborated directly with client to understand business requirements and deliver solutions within budget and timeline

TECHNICAL PROJECTS

- **Project Management (UL Chess Club):** Led a team of 5 using Agile methodologies and Azure DevOps, improving project efficiency and reducing issue resolution time by 20%
- **Big Data Analysis (IMDBSpark):** Engineered a distributed data pipeline in AWS to process and analyze over 3 million records from a large-scale (7 GB) dataset
- **Metrics & API Integration (LeetKeeper):** Developed a full-stack application to provide real-time performance metrics and data-driven insights through API integration

LEADERSHIP & ACHIEVEMENTS

President, Nepali Students' Club — August 2024 – August 2025
- Collaborated with university administration on compliance requirements and organizational reporting
- Managed annual budget overseeing allocation of funds across multiple events
- Increased organizational efficiency through improved processes and member engagement strategies

Global Distinguished Scholarship Recipient
- Awarded for academic excellence and demonstrated leadership potential, renewed annually through graduation
